STATEMENT OF NON-DISCRIMINATION

Applicants for admission and employment, students, parents, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with the Tri County Schools are hereby notified that this institution does not discriminate on the basis of race, color, national origin, sex, age, or disability in admission or access to, or treatment or employment in its programs, activities or policies. Any person having inquiries concerning the Tri County Schools' compliance with the regulations implementing Title VI, Title IX or Section 504 is directed to contact:

Mr. Jim Scholten
Tri County Area Schools
94 Cherry Street
Sand Lake, Michigan 49343

Discriminatory harassment of any form is unacceptable to this school district and subject to disciplinary action.

ENROLLMENT

Michigan law requires that a person enrolling a student in school provide the local or intermediate school district with a copy of the student's birth certificate and reliable proof of residency.

IMMUNIZATIONS

Michigan state law requires that each new student provide verification of completed immunizations as required by the Michigan Department of Health. Students who have not received the required immunizations will be excluded from school until parents provide proof that all required immunizations have been given, or have a waiver on file.

RESIDENCY

"District of residence" means the district in which a pupil's custodial parent or legal guardian resides [MCL 388.1603]. If a student's parent or legal guardian reside in different districts, either district may enroll the student as a resident, regardless of which parent or legal guardian has custody [MCL 380.1148a]. A student who has reached age 18 or who is an emancipated minor is a resident of the district which he or she resides. Out of district students may apply for "schools of choice" with participating districts within the specified time frame.

ATHLETIC ELIGIBILITY CODE

Representing Tri County Area Schools through interscholastic sports is considered an honor. Once a student achieves a position on a team, that person must abide by certain conduct and eligibility

requirements during the entire year (this includes vacations and summer time) and indeed during their entire participation in athletic programs at Tri County. These requirements are necessary because young men and women representing Tri County should be setting a good example for younger students as well as their fellow students and community as a whole. We are proud of our athletic teams and only those who maintain satisfactory scholastic standing and good conduct will be a part of them.

RULES GOVERNING CONDUCT OF STUDENT ATHLETES

SCHOLASTIC ELIGIBILITY

- A. Any student who does not maintain a cumulative 1.5 GPA thereafter will not be able to participate in athletics. GPA's will be computed at the end of each trimester and a student will remain ineligible until his/her grades are returned to the required standard. (Any student coming from the Middle School will become immediately eligible and during the course of the first trimester must earn at least a 1.5 GPA.)
- B. The Michigan High School Athletic Association requires that a student pass at least four classes each trimester to be eligible during the next trimester. A student who fails to pass the equivalent of 20 credit hours at the end of any trimester period shall be ineligible for 90 school days unless the deficiencies are made up.
- C. Students failing more than one class on their weekly eligibility sheet will be ineligible for the next week of competition (the next week is defined as Monday through Sunday).
- D. A special education student who is making satisfactory progress in a prescribed school course may be exempt from the normal scholastic requirement. (Please note: students can never be exempt from the MHSAA rule of passing four classes per trimester.)
- E. Students that failed a class or lost credit may retake the same course to possibly regain eligibility.

CONDUCT

Scholastic eligibility is important and so is conduct either in or out of school. Young men and women participating in sports are expected to follow all school rules properly and maintain good conduct outside of school.

- A. Any student suspended from the regular academic program for a violation of school rules or discipline may not participate in the athletic program during the period of suspension. In addition, the student may be declared ineligible to participate in athletics for a period exceeding the period of the academic suspension pursuant to the rules and procedures set forth in this athletic eligibility code.
- B. A student suspended from one Tri County School District school is ineligible to take part in athletics in another school until he presents a clearance card from the school from which s/he has been suspended.
- C. All participants must be in attendance the entire day at the school to play in an athletic contest if school is in session that day. The only accepted excuses (parent/guardian **must** notify school) will be: serious illness of a family member; death in the family; pre-existing medical condition; dental, pre-existing medical condition or medical services of the student (Parent/Guardian must notify school) for which a doctor's note is given to the Athletic Department; required appearance in court (court statement must be provided); required observance of a holiday or ceremony of the student's religion; or a planned absence approved by principal. Any other exception must be granted by the High School Principal (or Assistant Principal in his absence) before school is dismissed the day of the contest. Parents will be notified if the athlete is unable to participate.
- D. Athletes must be in school the day after a game played during the week. If they are out of school with exception to the excuses listed above, they will be ineligible for the next contest. Being tired is not an excuse.
- E. Athletes with a pre-existing medical condition must have a medical statement on file at the high

school.

- F. Anyone quitting a team must consult with his/her coach and then turn in his/her uniform within one week. Any student failing to follow said procedure will be ineligible to participate during the next athletic season or sport for one game or contest for every week the equipment is late.
- G. No student shall be allowed to wear an athletic uniform other than at an athletic contest connected with Tri County unless given permission by the coach of the team involved, subject to review by the Athletic Director and Principal.
- H. Use or possession of tobacco products, alcohol or other harmful substances and use or possession of narcotics or habit-forming drugs are prohibited.
- I. Any conduct in or out of school that is detrimental to the school or to the team is prohibited. Examples might include, but not limited to: theft, insubordination, fighting, hazing*, and destruction of property or arson.

PENALTIES FOR G, H, AND I ABOVE

The following penalties are considered minimum penalties and may be increased if circumstances warrant.

First offense: Athlete shall be suspended for one-quarter (25%) of the contests in the sport they are presently participating in.

Second offense: Athletes shall be suspended for two-thirds (66 2/3%) of the contests in the sport they are present participating in.

Third offense: Suspension from participating in all athletic programs for a period of one full calendar year.

*** All hazing incidents will be referred to the Board of Education for determination of penalty.**

General Penalty Guidelines:

- A. Any athlete turning themselves in for an athletic code violation will have their penalty decreased by 10% on a first or second violation only.
- B. Any athlete serving suspension will not be nominated for all-conference, all-area or all-state recognition.
- C. Any Tri County student convicted of or pled guilty or nolo contendere (no contest) to a felony will lose their eligibility for the remainder of their time at Tri County. If final sentencing is less than a felony, the penalty will be reconsidered if requested by the athlete or their parents, to the Superintendent. A committee comprised of three (3) Board Members, the Athletic Director, and the Superintendent will make the final determination.
- D. If suspension cannot be fully served during present sport season, it will carry over into the next sport season the athlete participates in.
- E. If violation occurs when the athlete is not currently participating in a sport, the suspension will be served during the next season that the athlete participates in.
- F. During suspension, athletes will be required to participate in all practices and attend all games (out of uniform). The athlete will not be allowed to participate, however, on any days s/he is suspended from school.

DUE PROCESS AND PROCEDURE

- A. The coach of the sport in question (Principal and Athletic Director for alleged out-of-season violation) will conduct an investigation and review of any allegation of a violation of the above rules of conduct, excluding questions of scholastic ineligibility. This investigation and review may include consultation with the student under investigation and his/her parents or guardian. If

a student is reasonably suspected of being in a violation of a rule, the student shall be notified of the charges against him/her and given an opportunity to respond. The student may be temporarily suspended from the team pending an immediate investigation and review. The student and parents or guardian shall be informed of any temporary suspension.

- B. The investigation and review will be completed by the coach as soon as is reasonably possible. Upon completion of his investigation and review, if a violation is found to exist, the coach will report to the Athletic Director and Principal. If the investigation and review result in discipline being imposed, the student and/or the student's parents or guardians will be given written notice of the nature of the violation, a brief summary of the evidence in support of the finding of a violation, and notice of the penalty to be imposed.
- C. The student and/or the student's parents or guardians will be given an immediate opportunity to meet with the Superintendent or his designee, if they so request. At such meeting, the student and/or the student's parents or guardians will be afforded the opportunity to present the student's side of the story on the charged violation itself and to present evidence in an extenuation and mitigation of any violation. Upon the conclusion of this review, the Superintendent or his designee may then affirm, modify or vacate the charged violation and/or the penalty, in whole or in part. The Superintendent's decision is final.
- D. Athletic Code Violation Report forms are available from the Athletic Director for any person wanting to report a violation of the Athletic Eligibility Code.

ELIGIBILITY FOR EXTRA-CURRICULAR ACTIVITIES

Rules governing eligibility for non-athletic department extra-curricular activities are determined by the Board of Education. In the absence of Board of Education policy, rules governing eligibility is determined by the high school administration.

In general, the eligibility guidelines for participation in school clubs, groups, organizations, events, and activities other than sports are similar to the rules for participation in interscholastic athletics. The code of conduct is the same for both types of activities.

ATTENDANCE POLICY

The Michigan Compulsory School Attendance Code, Section 380.1561 states that "Every parent, guardian or other person in this state having control and charge of a child from the age of six (6) to the child's sixteenth (16) birthday, shall send that child to the public school during the entire school year."

Philosophy

- A. The Tri County Board of Education promotes a policy of high expectations and academic achievement for all students. It is important that children learn the value of prompt and regular attendance.
- B. Frequent absences from school disrupt the continuity of instruction and learning. When the student is absent frequently, the benefit of regular classroom instruction is lost and cannot be entirely regained. The process of education requires a continuity of instruction, classroom participation, learning experience and study in order to maximize each child's educational opportunity. This is the well-established principle of education that underlies and gives purpose to the requirement of compulsory school in this state.
- C. Attendance and punctuality in class are proper educational values and are part of the behavior expected of the student both in his/her academic setting and his/her community at large. A specific attendance procedure has been adopted by the Tri County Board of Education that is understandable and reasonable in its expectations of students and parents.

Excused Absences

- A. A student receives an excused absence whenever he/she is given permission by the school principal/school attendance officer to leave or be dismissed from one or more classes, school-sponsored program or school-related activities. A student receives an excused absence when he/she is absent from school for the following reasons:
 - 1. Serious illness of a family member;
 - 2. Death in the family;
 - 3. Illness, injury, dental or medical services of the student. If a student has been absent from school because of illness and is at a school activity that day after school is dismissed, at a job, etc., he or she will receive an unexcused absence from school unless prior arrangements have been made with the high school principal.
 - 4. A required appearance in court;
 - 5. A required observance of a holiday or ceremony of the student's religion; or
 - 6. Planned absences for personal reasons that the principal or his/her designee may consider justifiable when requested in advance. Planned absences for justifiable personal reasons will be based on the student's current academic performance and a pattern of regular school attendance. The student's teachers may be asked to review the request, but the final decision will rest with the principal or his/her designee. If the student does not meet the above mentioned criteria, the request will be denied. If the student chooses to leave after the request has been denied, all days absent will be unexcused. Passing all classes will be considered an important criterion for favorable approval. If a student leaves school or class before the end of the regular school day for any reason without checking out in the office, they will be unexcused for the time missed unless the principal determines that extenuating circumstances exist that warrant an excused absence. Planned absence request forms may be obtained from the office.
- B. Absence for any reason other than the six (6) above-listed categories will be unexcused unless the principal determines that extenuating circumstances exist. Homebound teachers are provided on an extended illnesses; pregnancy is not an extended illness.
- C. The verification of an absence shall be made in accordance with any reasonable method that establishes the fact of the reason for absence, including the following:
 - 1. phone call from parent;
 - 2. note or personal visit from parents;
 - 3. home call; or

4. note from physician
- D. Parents/guardians must contact the school by phone or note by the end of the school day following an absence to report the reason for absence. Excuses should be presented in the office before classes begin in the morning. The administration reserves the right not to excuse a student's absence, if the excuse is known to be invalid.
- E. For an excused absence, a student will be allowed (3) days from their return to complete missed assignments. Full credit will be given for these assignments.
- F. It is the parents'/guardians' responsibility to make arrangements for securing schoolwork early enough during an extended absence in order for the student to maintain academic progress. Parents/guardians are to contact the school office before 9:00 a.m. to request their student's books and assignments. Students out of school for four (4) weeks or more may be provided with a homebound teacher.
- G. The principal and/or the individual classroom teacher will schedule a conference with a student to develop an attendance contract to resolve sporadic absence or attendance problems.
- H. When a student has accumulated a total of three (3) unexcused absences in a class in a trimester, the student may be assigned no credit for that particular class. (parent will be notified)
- I. A student who has lost credit due to excessive unexcused absences may redeem credit by serving time outside of the normal school day for absences three (3), four (4), and five (5). Absences six (6) and beyond, however, are not redeemable. Unexcused absences must be redeemed by the end of the trimester.
- J. Students that receive a "no credit" will earn credit if he/she is able to pass the final exam with a 78% or higher.

Unexcused Absences

Any student who is absent without proper verification will be considered truant (unexcused). Students absent without proper verification may be subject to the following:

- A. **Make-Up Assignments:** For every unexcused absence or truancy, a student will receive a "0" for any class work.
- B. **Exams, Tests, and Projects:** Students may not make up exams or tests given during the period of an unexcused absence. Projects due on the day of an unexcused absence will receive "0".
- C. **Disciplinary Action:** Disciplinary action may include, but is not limited to, contact by school administrator, truancy officer, conference with parent/guardian, notice sent home, and court referral. Punitive action may include detentions or suspensions.

Detention

This hour is considered part of the school day. Students who are assigned this form of discipline will be required to attend for the entire hour. No transportation is provided by the school. COUNSELING & SERVICES

Academic-Vocational Guidance

Educational Development Plan

Every TCAHS student is interviewed at least once each school year. During the interview, the student's educational development plan is revised. High school credits are tallied, career goals are discussed, and a tentative schedule of courses is formulated for the remaining years of high school. If a credit deficit is projected, a plan is made for making up the deficit so the student can graduate within four years of high school.

If a significant credit deficit is anticipated at the end of four years, a student may be advised to consider additional years of high school attendance.

Career Pathways

Career Pathways are broad groupings of careers that share similar characteristics. The six career pathways used at TCAHS are: (1) Arts and Communications, (2) Business, Management, Marketing and Technology, (3) Engineering/Manufacturing and Industrial Technology, (4) Health Sciences, (5) Human Services and (6) Natural Resources and Agriscience.

The interests, aptitudes, education, and training required for success in each pathway are used, as a general guide to the education and training a student may want to undertake in high school.

Standardized Testing

The following standardized tests are routinely offered on campus at TCAHS:

9th - MEAP Social Studies, Plan

10th - Plan, PSAT

11th - Michigan Merit Exam MME, PSAT, Armed Services Vocational Aptitude Battery (ASVAB)

Registration materials and sample tests for the following college entrance tests are available through the TCAHS counseling office: SAT Program

Course-Completion-By-Examination

Parents may request in writing that their student take the final examination for a high school course.

The final examination may include a project, product, oral report, or term paper. In general, the purpose for attempting CCBE is to enable the student to take the next most difficult course in a department.

Parents may request that their student take the final examination for a course for the purpose of enrolling in the next most difficult course in a department.

Early Entry Classes

Upon teacher recommendation, eighth grade students may be placed in high school classes. When completed, students will receive a grade of CR or NCR to be included in calculations of total credits for graduation on a high school transcript.

Course Catalog

Available through high school counseling office and on the Tri County Area Schools website.

Personal-Social Counseling

A student with a personal concern can refer herself/himself to the counselor or can be referred by a parent, faculty member, or significant other such as a grandparent.

The student identifies a personal concern. Strategies for coping with the concern are formulated. The strategies are implemented.

In the case of a severe personal concern, the student may be referred to the school social worker or a community mental health agency.

The counselor will inform the student at the beginning of an interview that information shared is confidential except when the student implies that he/she will harm himself/herself, harm another person, or is being harmed.

GRADE REPORTS/PARENT TEACHER CONFERENCES

Testing will be administered at student request at the beginning of each trimester.

HOMEWORK POLICY

As an extension of classroom work, homework is a necessary part of learning used to enhance everyday teaching. Learning is not limited to a school day or time in the classroom. Therefore, homework is not merely busy work but is a learning experience beyond the school day. A homework policy should be a guideline, and not be so rigid those individual students and specific classes cannot be dealt with differently.

- A. Students can expect homework everyday. The assignments will vary according to the type of class.
- B. Those resources necessary to complete a class assignment will be considered when making a homework assignment.
- C. Students having multiple tests, reports or assignments due on the same day will have to manage

- their time accordingly. Reviewing notes, research, and studying for tests are types of homework.
- D. Teachers will notify students when homework assignments are due and how late assignments will be handled.
 - E. Students will be responsible for and held accountable for their homework assignments.

PROJECT FIND

In Michigan we know that education begins at birth. We also know that some of our children need extra help or other related special services along the way. That's why Michigan's special education system helps children as young as newborns and up to age 26.

Project Find provides information about special education programs and services and helps arrange free evaluations to find out if a child is eligible for extra help from Michigan's public schools.

If your child, or a child you know is struggling in school or has a physical, emotional or communication problem that might help prevent success in school, please contact your building principal or Dan Brant, Tri County Area Schools Special Education Coordinator, at 616.636.5454.

CHILD ABUSE / NEGLECT

Schools and other institutions shall cooperate with the Family Independent Agency Department during an investigation of a report of child abuse or neglect. Cooperation includes allowing access to the child without parental consent if access is necessary to complete the investigation or to prevent abuse or neglect of the child. However, the department shall notify the person responsible for the child's health or welfare about the department's contact with the child at the time or as soon afterward as the person can be reached. The department may delay the notice if the notice would compromise the safety of the child or child's siblings or the integrity of the investigation, but only for the time those conditions exist. If the department has contact with a child in a school, all of the following apply:

- a) Before contact with the child, the department investigator shall review with the designated school staff person the department's responsibilities under this act and the investigation procedure.
- b) After contact with the child, the department investigator shall meet with the designated school staff person and the child about the response the department will take as a result of contact with the child. The department may also meet with the designated school staff person without the child present and share additional information the investigator determines may be shared subject to the confidentiality provisions of this act.
- c) Lack of cooperation by the school does not relieve or prevent the department from proceeding with its responsibilities under this act.

GRIEVANCE PROCEDURES FOR HARASSMENT (How to File a Harassment Complaint)

It is a violation of the law and of school rules for any student or staff member to harass or intimidate another student or staff member.

Step 1: If you are the recipient of unwanted behavior, communicate to the offender 1) what you are feeling, and 2) that you expect the behavior to stop. The importance here is your sense of safety. Thus, the following options are available for you to do the above: 1) Tell the person directly to stop the unwanted behavior, 2) communicate to the person in writing to stop the unwanted behavior, or 3) go to a safe contact person, such as your school counselor or a teacher, for support in telling the person to stop the unwanted behavior.

Step 2: If the unwanted behavior is repeated, go to a person in authority such as the principal or assistant principal. Document exactly what happened. Give a copy of your written record to the person in authority, and keep one for yourself.

Your document should include the following information. Use exact quotes where appropriate and whenever possible.

1. What happened
2. When it happened
3. Where it happened
4. Who did the harassing
5. Who the witnesses were (if any)
6. What you said and/or did in response to the harassment
7. How your harasser responded to you
8. How you felt about the harassment

Step 3: If the unwanted behavior is repeated, go back to the principal or assistant principal documenting the behaviors stated in **Step 2**. Give a copy of your written record to the person in authority, and keep one for yourself.

Step 4: If unwanted behavior does not stop, you may either go back to the principal or assistant principal or go to a person in higher authority, such as the superintendent or a school board member documenting the behaviors stated in **Step 2**. Give a copy of your written record to the person in authority, and keep one for yourself.

DISCIPLINE POLICY

Introduction

The right to attend our public schools is beyond question. Likewise beyond question is that this right is tempered by and subject to proper regulations. Violations of these regulations may result in disciplinary action.

Philosophy

- A. The primary objective of student discipline and control is to produce a school environment in which complete attention may be defined as the control of conduct either by the individual himself or by the external authority. It includes the entire program of adapting the individual child to live in this society and involves two major emphases:
 1. To insure that no student shall interfere with a teacher's right to teach or another student's right to learn; and
 2. To assist the pupil in becoming a responsible, productive and self-disciplined citizen within the school in preparation for assuming adult responsibilities.
- B. The student is expected to assume personal responsibility for his/her behavior, relative to his/her maturity. The school system will assist each student to become more responsible as

he/she matures and gains experience. While it is recognized that children and youth can be controlled through fear and actual physical restraint, the purpose of the school is to help students develop self-control and self-discipline.

- C. In the event a student has to be excluded (in-school suspension, out of school suspension or expelled) from the school setting because of a behavior problem, parents will be notified.
- D. Students who assist, encourage, or aid in the violation of the student code of conduct are subject to the same discipline as the students who violate the code.
- E. Students serving an out of school suspension are prohibited at any school related activities including the weekend during the suspension.

Disruptive Behavior Requiring Disciplinary Action

Elastic Clause

The school and administration reserve the right to establish fair and reasonable rules and regulations for things requiring actions that are not covered in the handbook that may arise. In all cases, rules, regulations, and possible consequences shall be as consistent as possible with previously established rules, regulations, and possible consequences for similar incidents. Matters omitted from the final list should not be interpreted as a limitation to the scope of the school's authority in dealing with any type of infraction that may not be in the best interest of the safety and welfare of the students of the high school.

The policies and regulations within this handbook apply for all school sponsored activities and transportation, including those held before or after school and those held away from Tri County High School. Safe transportation is provided through the Transportation Department. If this is jeopardized, removal from the bus may be necessary.

Policy Statement

District students who possess a dangerous weapon in a weapon free school zone, or who commit arson or rape in a public school or on public school grounds, shall be permanently expelled from this District and all Michigan public schools in accordance with applicable law.

Arson and rape are also defined in the Michigan criminal codes.

Exceptions

A student who possesses a dangerous weapon in a weapon free school zone shall be permanently expelled, subject to possible reinstatement, unless the student can prove by clear and convincing evidence at least one of the following:

The student, if 18 or emancipated or the student's parent/guardian shall be notified of the referral. In addition, the District shall notify appropriate law enforcement officials when a student possesses a dangerous weapon in a weapon free school zone.

Students expelled under this policy may not attend a regular Tri County program and are expelled from all public schools in the State of Michigan. However, such students may be enrolled in an appropriate program at the discretion of the district, which operates or participates in the program. Such a program must be operated in facilities and at times separate from the general student population. The district is not obligated to provide an alternative program.

Reinstatement

Students expelled from Tri County or other public schools for the reasons described in this policy are eligible for reinstatement depending on their grade level and the duration of expulsion.

Students who are 18, emancipated students, or their parents/guardians may petition the expelling school district for reinstatement when they become eligible for reinstatement. If denied, students may then petition another school district for reinstatement.

Students who are in grades 5 or below at the time of expulsion may petition for reinstatement anytime after 60 school days of expulsion, but may not be reinstated until after 90 school days of expulsion.

The Board and administration are not required to provide any assistance in preparing the petition for reinstatement. However, upon request, a form for petition will be provided.

Petitioning for Reinstatement

When an expelled student is eligible to petition for reinstatement, the student, if 18 or emancipated, or the student's parents or guardians may file a petition for reinstatement or a form provided by the Board. The petition should be filed with the Superintendent of Schools and should contain any supporting information the petitioner believes is relevant. The petitioner may include proposed conditions for reinstatement.

The committee shall consist of 2 school board members, 1 school administrator, 1 teacher and 1 parent of a student in the district. The Superintendent may prepare relevant information for the committee to consider.

Committee Recommendation

Not later than 10 school days after the committee is appointed, the committee shall make a written recommendation to the Board regarding the petition for reinstatement. The recommendation shall be for conditional reinstatement, for unconditional reinstatement or against reinstatement. The recommendation shall consider the following factors:

1. the extent to which reinstatement would create a risk of harm to students or school personnel;
2. the extent to which reinstatement would create individual or district liability;
3. the age and maturity of the student;
4. the student's school record before the expulsion;
5. the student's attitude concerning the incident that gave rise to the expulsion;
6. the degree of cooperation the student receives from any participating parent or guardian, including receptivity towards any conditions on reinstatement.

The recommendation of the committee shall contain an explanation for the recommendation and any recommended conditions.

Board of Education Decision

Not later than the next regularly scheduled Board meeting after receipt of the committee recommendation, the Board shall decide the petition for reinstatement. The Board shall either grant the petition conditionally or unconditionally, or deny it. The Board may require an agreement in writing upon a conditional reinstatement. Such conditions may include but are not limited to a behavior contract; participation in an anger management program or other appropriate counseling; periodic progress reviews; specific consequences for violation of conditions. The Board's decision is final.

STUDENT RECORDS

Introduction

Every student at TCAHS has a cumulative folder (CA60). The record was started beginning elementary school.

Included in the cumulative folder are the student's identification information, health records, academic transcript, standardized test scores, behavioral history, and other documentation relating to the student's school experience.

Under the Family Education Rights and Privileges Act, 1974, the parent/guardian of a student under the age of sixteen years, and a student eighteen years or older, have the right to examine records and data of the school district that is personally related to the student. They have the right to challenge the contents of such records as to their accuracy and fairness.

The procedures for examination and challenge of school records are contained in Board of Education policy and may be obtained from the Tri County Area Schools Superintendent.

Right to Object To Release of Directory Information

In general, school officials will obtain written permission from the parent of a student before releasing information from the student's school records.

Federal law allows school districts to disclose directory information about students without parental consent. Directory information includes: student name, gender, address, date of birth, major field of study, participation in extra-curricular activities, height and weight of members of athletic teams, dates of attendance, and awards received.

A parent may request that directory information about the student be released only with written permission.

Notice to Parents/Eligible Students of Rights Under the Family Educational Right to Privacy Act (FERPA)

The Family Educational Right to Privacy Act (known as FERPA) is a federal law which governs the maintenance and disclosure of student's educational records in public schools.

1. To inspect and review the student's educational records;
2. To request the amendment of the student's educational records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights;
3. Consent or the disclosure of personally identifiable information in the student's educational records, except to the extent that disclosure is permitted by law with out consent; "High school students and their parents/guardians may prevent disclosure of a student's name, address, and telephone number to military recruiting representatives (who can only use that information to provide information to students concerning educational and career opportunities available in the U.S. Armed Forces or service academies) by submitting a signed written request to that effect to the high school principal."
4. File with the US Department of Education a complaint concerning alleged failures to comply with FERPS;
