Assignments for all 6th-8th grade this week:

1. Play 1 scale on the attached sheet and submit it. 6th grade- you may need to look at #83 in the red book. If there are notes you don't know how to play, look up the fingering. If you can't play the whole scale, play what you are able to play!
    a. Extra credit to anyone who submits the chromatic scale!
2. Movie themes- pick one theme that fits your skill level and submit it as a playing test. Challenge yourself!

The music theory website above is a tool you can use to get better and better at your theory knowledge. Almost like a video game! The percussionists should explore the percussion resource above as well. Lots of good info and videos on that website.
